

# Stand-alone Racks

## Stand-alone Zebrafish Housing Rack

*The stand-alone zebrafish rack by Aquaneering is the ideal housing solution for your research needs. Every system can be configured to your specific requirements.*

- 4-shelf to 8-shelf options
- Double-sided options
- Optional features include automated dosing and remote monitoring with alarm notification and cloud-based access to system parameters
- 24-hour technical support, online store for ordering supplies, and flexible preventative maintenance contracts

**AQUANEERING**  
INCORPORATED

*Superior Water Quality. Because your research depends on it.*

Our stand-alone system is a single-rack holding system with recirculating filtration that can hold up to 2,850 adult zebrafish. The stand-alone features a new valve style, stainless steel UV, and a powder coated finish for our 316-stainless-steel rack frame. Our fluidized bed biofilter technology ensures superior water quality conditions including zero ammonia and nitrite levels, making sure your fish thrive in a healthy tank environment.

## Product features:

- Powder-coated racks
- Tank valves with precision flow control
- Quiet running submersible pumps with low water shut-off
- UV disinfection via stainless steel UV sterilizer
- Multiple rack width options (50.5", 60", 69")
- Optional solutions for automated water exchange
- External water use valve with coiling hose
- Flexible tank configuration to accommodate up to six Aquaneering tank sizes ranging from 0.8-liter to 9.5-liters
- Consumable-free mechanical filter

## Standard system options:

Product Number	Details
ZS560	5-shelf Stand Alone version is available for rooms with shorter ceiling heights.
ZD660	Double-sided Stand Alone rack option doubles the tank capacity of a ZS660 stand-alone.
ZS650 & ZS669	Shorter and longer rack length options to maximize capacity in varying spatial conditions.
Central Filtration	Custom racks with 3-7 shelves, 7 different tank sizes, and Stand Alone and Multi Rack Configurations

*Aquaneering has built the largest systems in North America and is the oldest manufacturer of aquatic systems!*
