Featuring Our New Tank Option: 10 Liters! (with center standpipe or rear drain)

AQUA **NEERING**

INCORPORATED

Superior Water Quality. Because your research depends on it.

The standard axoRack is a 5-shelf, single-rack holding system with recirculating filtration that is specifically engineered for axolotls. The axoRack has specialized features to meet your applications for cold, freshwater species such as axolotls. Our fluidized bed bio-filter technology ensures superior water quality conditions including zero ammonia and nitrite levels, making sure your animals thrive in a healthy tank environment.

Product add-ons:

Add-on	Details
Local monitoring and dosing	Local monitoring and dosing for pH and conductivity with dosing pumps and 3-gallon concentrated solution bins
Cloud-based monitoring	Cloud-based system monitoring with email alerts, optional SMS alerts, and unlimited recipient destinations
Timed water exchange	Programmable timed water exchange with 15-gallon make-up water system

Other standard system options:

Product Number	Details
ZS560	5-shelf Stand Alone version is available for rooms with shorter ceiling heights.
ZD660	Double-sided Stand Alone rack option doubles the tank capacity of a ZS660 stand-alone.
ZS650 & ZS669	Shorter and longer rack length options to maximize capacity in varying spatial conditions.
Central Filtration	Custom racks with 3-7 shelves, 7 different tank sizes, and Stand Alone and Multi Rack Configurations

Aquaneering has built the largest systems in North America and is the oldest manufacturer of aquatic systems!
